CONFERENCE

TABLES

Design by Roberto Lucci & Paolo Pampanoni

Exclusive meeting tables

The Italian design of the tables is based on the harmony of straight and curved lines.

Quality is in the details

The rectangular tables come with soft closing grommet, beautifully framed in metal and concealing the box for wire management. This functional detail becomes invaluable in long meetings.

60

61

The elegant three-part curved steel legs are crafted using difficult technology and are the ultimate distinctive feature of the system. The solid thick tabletop increases the sturdiness and the visual impact of the tables.

A universal choice

Intelligently designed solutions allow you to create aesthetically pleasing and well-organized meeting areas.

64

Special desk inserts are functional and playful elements which can be of a different colour than the desktop and can efficiently conceal internet and power boxes. In addition, each cable under the table passes through horizontal and vertical cable ducts.

Meeting tables can accommodate 6 to 12 people but there is an option of setting up a desired number of workplaces using additional side panels.
