ACOUSTIC  
PODS

# SILENT ROOM

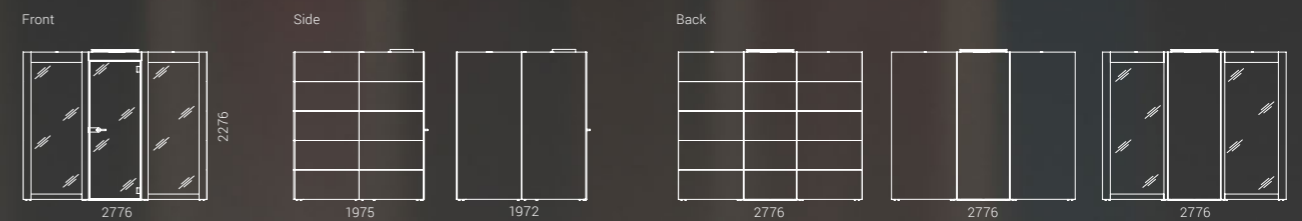

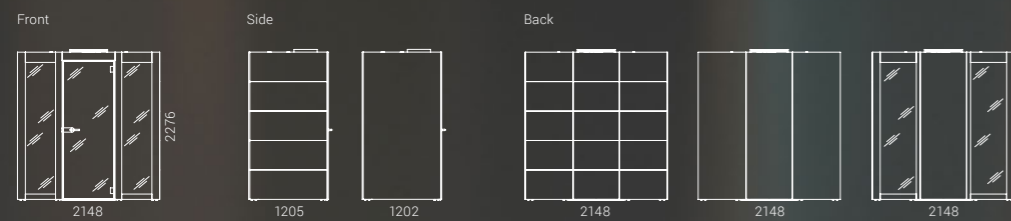

Choose SILENT ROOM acoustic pods to create functional work areas by dividing or opening interior spaces as necessary. This piece of furniture can be set up in the middle of the office space, near the walls or partitions or inside a wall niche maintaining a clearance of just 30cm at the top for air circulation.

SILENT ROOM

SILENT ROOM

## Less noise, less chaos

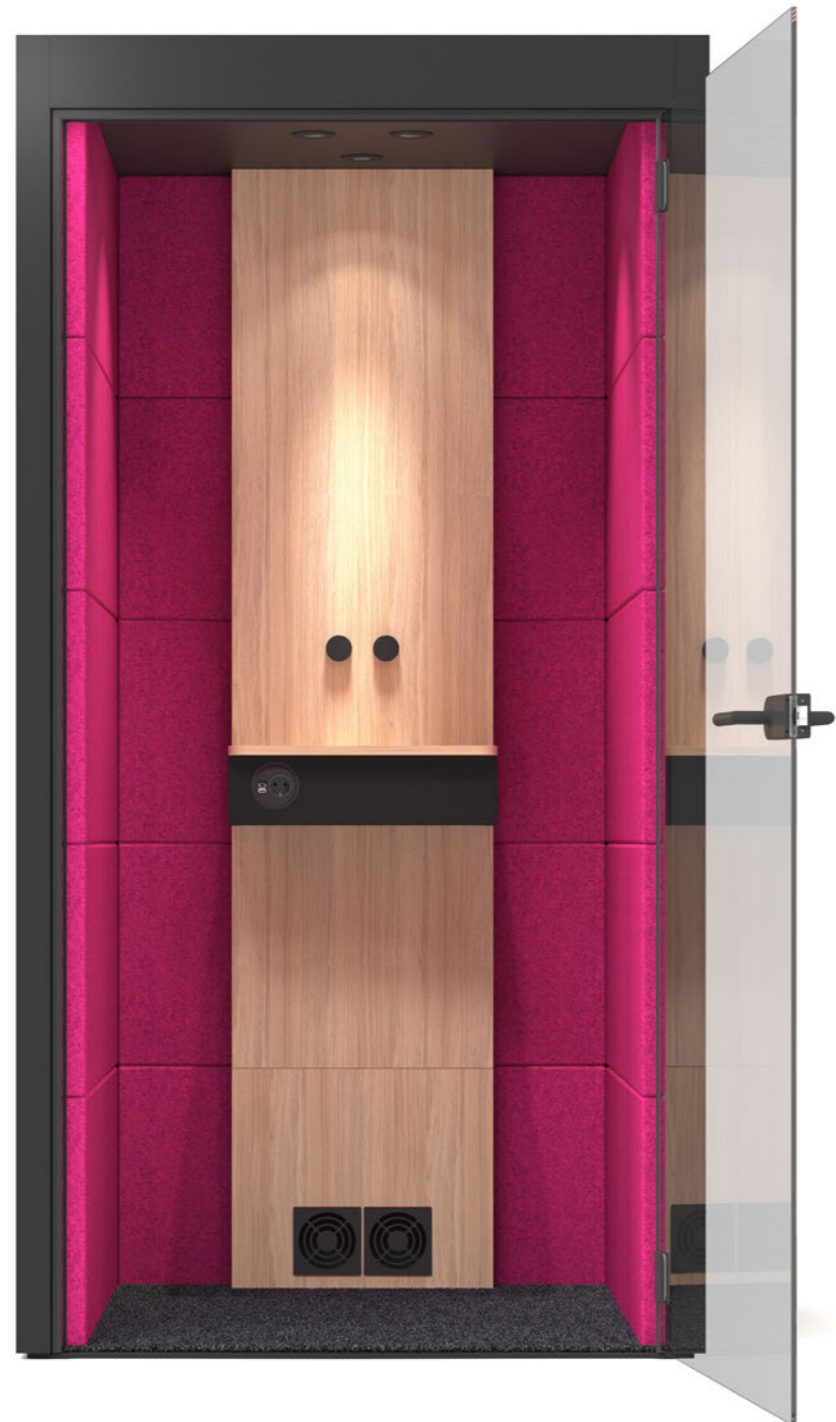

Multilayered SILENT ROOM wall structure, hermetic door and ceiling ensure sound insulation. The inner layer of the panels is made from high-class acoustic material that eliminates echo and has excellent sound absorption properties. The upholstered exteriors block out noise effectively and create an acoustically-optimized working environment.

## Creative freedom to customise your design

SILENT ROOM offers a variety of design options for you to be able to create a personalised design and desired office mood. The interior and exterior finish can be selected separately. Both melamine and upholstery can be used for the exterior panels.

A powerful ventilation system installed at the floor level and in the ceiling of the SILENT ROOM acoustic pod efficiently removes excess heat and high levels of CO<sub>2</sub> concentration. A smart control unit selects an optimal ventilation and illumination level, and, if necessary, allows for individual adjustment. Once an employee leaves the SILENT ROOM, intense ventilation is automatically activated to prepare the room for the next user.

## ACOUSTIC PODS

SILENT ROOM is easily adapted to a variety of activities. The acoustic pods come in three different sizes with selectable options such as glass back-wall inserts, high or standard tables, seating, monitor holders, etc.

For users' convenience, the room can be equipped with a power outlet (USB type A and C connectors) or 3-plug power block. The power block can come with in-built sockets, LAN or USB ports in various configurations.

## Multifunctional acoustic screens

FREE STANDING acoustic screen system offers unlimited possibilities to divide your office with visual and acoustic barriers and even quickly create new areas for specific types of activity.

FREE STANDING

Thanks to their simple configuration, these acoustic screens allow you to easily divide your office space into desired areas. You can choose free standing screens with support feet or mobile screens on casters. The panels are available in a broad selection of sizes and can also serve as workspace dividers.

The screens are filled with a special sound-absorbing foam and provide a class C sound absorption. They can be upholstered with the fabric of your choice. The special connectors can be used to combine, align and hold the screens in place.

MODUS acoustic panels will improve your working environment and workplace well-being by absorbing background noise and by creating acoustically private spaces as well as bringing character to the interior space. The acoustic panel system includes wall panels, ceiling (horizontal) panels, and ceiling (vertical, double-sided) panels.

The panels come in different sizes, as large as 1200x1200mm, and are very easily joined together. The panels contain a special patented and certified material designed to efficiently absorb sound.

Double-sided (vertical) panels

Wall panels

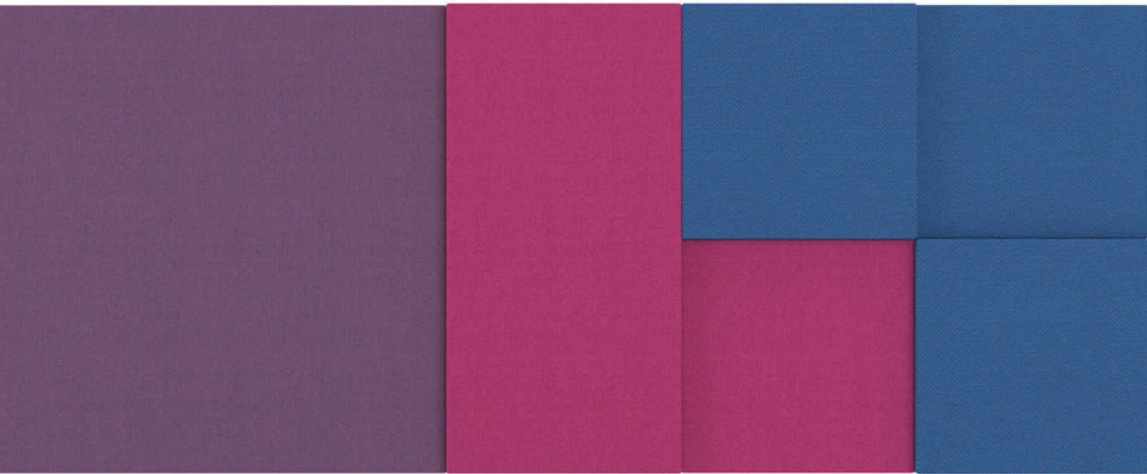

Ceiling (horizontal) panels

You can choose acoustic panels with different fabric colours on each side to create your own unique interior design. Select from from six different sizes and mix and match different panel depths (40 or 70 mm).

# MODUS Light

134

## Acoustic comfort in open-plan offices

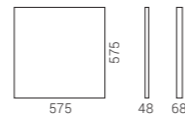

MODUS Light are lightweight, sound-absorbing wall and ceiling panels that improve office acoustics and serve as an inspiring and functional interior solution.

Panels are made of acoustic foam offering class A (for a 68 mm panel) or class C (for a 48 mm panel) sound absorption.

Thanks to their lightweight design, these acoustic panels are easy to transport and easy to install. MODUS Light are available in three design options: wall and ceiling panels, hanging panels, and Armstrong ceiling panels (integrated or hanged on a wire rope). The panels have multiple different fitting options and can be attached to a number of surfaces, even glass.

Implement your creative ideas by using acoustic panels of three different sizes and two different depths. You can also choose from our wide range of fabrics and a variety of colour options.

## Privacy and comfort at the workplace

Height-adjustable or fixed-height MODUS acoustic desk screens will offer both privacy and sound absorption sheltering users from general office noise.

136

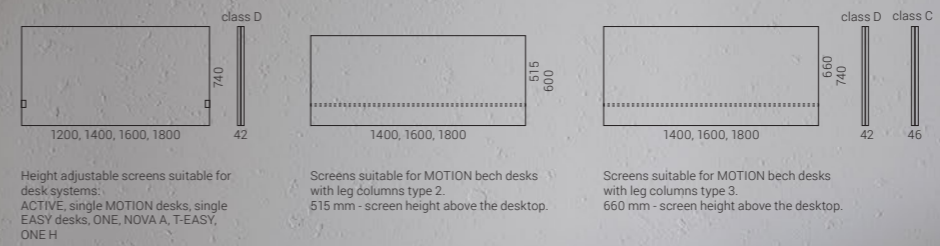

MODUS

MODUS acoustic desk screens are double-sided. Thanks to this construction, you will be able to choose a combination of two different colours.

Height-adjustable screens will allow you to adjust the height of these acoustic screens by releasing and tightening the metal holders. Choosing a fixed-height will ensure a uniform look of the workspace even with one employee standing and another sitting at the desk.

The screens provide Class D sound absorption. Class C sound absorption is available for MODUS desk screens specifically designed for our MOTION two-desk benches.

# DESK 760

## Privacy without isolation

The DESK 760 acoustic panel system improves visual and sound comfort of the workplace without separating team members from one another thus allows them to communicate freely. The system offers screens to cover all sides of the desk. Thanks to a wide range of colour options and functionality, these panels work well in various spaces.

Screens suitable for desk systems:  
NOVA U, NOVA H, NOVA A, NOVA O, EASY,  
T-EASY, ONE, ACTIVE, AIR, NOVA Wood  
(Melamine; only single desks)

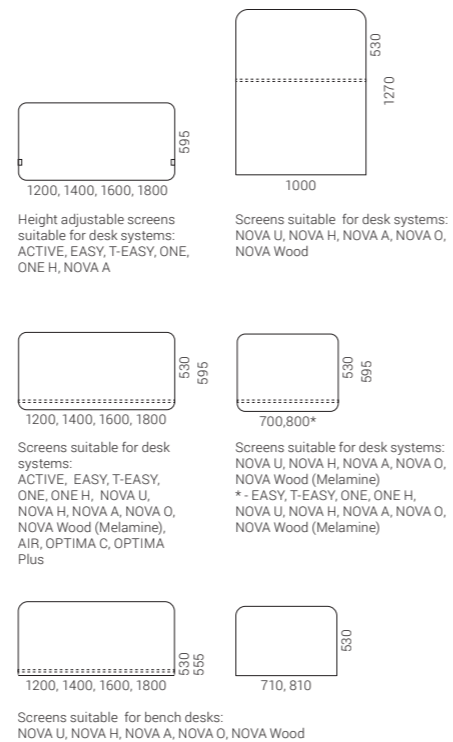

DESK 760

## Acoustic comfort and privacy at the workplace

TOP 530 acoustic desk screens add privacy to your workplace and absorb background office noise. This solution enables employees to better focus on their tasks yet still allows communication and doesn't separate team members from one another. The system offers screens to cover all sides of the desk.

Because of the sound-absorbing material TOP 530 acoustic desk screens have a class C rating for sound absorption. The screens are perfect for both single desks and bench desks and come in a variety of colours and materials to match any interior.
